

Strengthening lives 5.0

“Just believe in yourself. Even if you don’t pretend that you do and, and some point, you will.” —Venus Williams

SGNPS is striving at every possible arena, making the above said quote right. A school not only provides quality education, but is responsible to make happy and developed persona of a child. We at S.G.N.P.S believe that School is a place where children explore, learn and try to know their best potential. School provides a nutshell to children for being self-aware and be ready mentally, socially and emotionally. Considering the need of hour, SGNPS has introduced an initiative of ‘Reduced Working Hours’ in session 2023-2024, in which every last working day of Month will be observed as Personality development day focusing on Social and life skills of students.

This new session has already marked its presence and the second phase of the Reduced working hours initiative took place on April 30, 2024. S.G.N.P.S celebrated and observed **World Autism Awareness day on Tuesday, 30 April.** In order to create awareness for Autism and sensitize our staff and students about this issue. Our children should act empathetically and learn about this disability in depth so that they can stand in solidarity with the children with special needs. Whole staff wore Blue to represent acceptance.

Class 1-2

- Mindful Coloring

Class 3-7

- Slogan Writing

Class 8-12

- Poster Making

Class 1-2 -Performed activities of mindful colouring for Autism Awareness

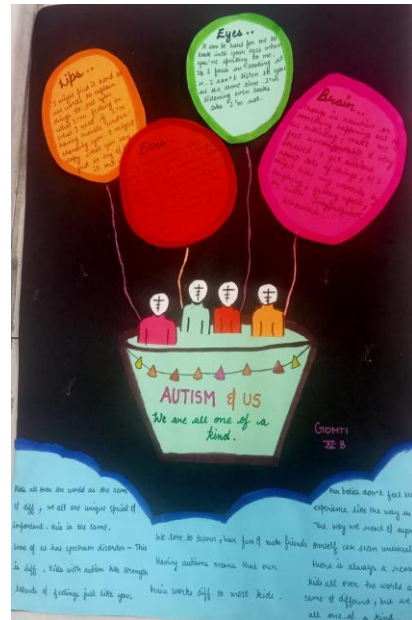

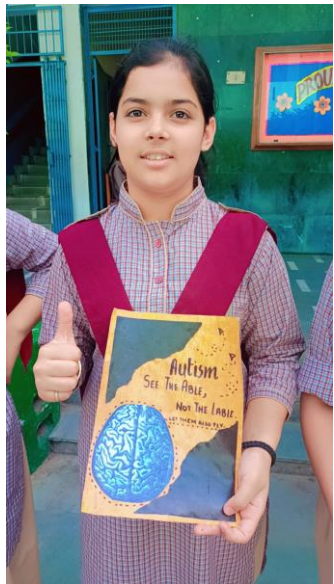

Classes 3 -7 performed activity of Poster making, students felt very happy to engage in this activity. They learned about Autism and created atmosphere of empathy

Classes 9-12-exhibited amazing creativity by curating beautiful posters on Autism. They all understood the meaning of disorder and through art represented Acceptance and solidarity. They all made informative posters to enlighten and educate everyone about this disability.

Class 11-12 Psychology Batch

This time SGNPS witnessed the Psychology students, creating awareness about Autism Spectrum Disorder in every class. They curated informative presentations and educated whole school about ASD. They used their smart wit, classroom lessons and creativity to impart the information to students. They all carried Blue badge to symbolise solidarity with ASD

“Education is the most powerful weapon which you can use to change the world.” – Nelson Mandela. SGNPS through many initiatives trying to educate children on every aspect.
